

COLOR PALETTE

On these pages you will find the various colors offered by Fleetwood. Standard laminate colors are those which are offered at standard pricing. They are divided into two groups: Stock and Limited. Stock colors will usually offer the lowest lead time to build and ship. Limited colors may need to be ordered if we do not have enough stock on hand, potentially causing longer lead times for delivery. In addition to these colors, Special colors may be ordered to match virtually any pattern, but pricing and lead times are likely to be affected.

Quick Ship colors are identified with a  designation.
